The Hague Conference

Great Britain, Mexico and Denmark Willing to Take Part.

French Officials Say Principle Involved Is Acceptable to Government.

United States Now Negotiating Arbitration Treaties With Several Nations.

Copenhagen, Nov. 11.—The Danish government will accept President Roosevelt's invitation to participate in a second peace conference. The government considers that it is particularly desirable that a clear international agreement be formulated regarding neutrality and arbitration. Negotiations for a treaty of arbitration between the United States and Denmark have been opened. The Danish government, it is declared, is glad of the opportunity to enter into such a treaty.

Washington, D. C., Nov. 11.—Great Britain and Mexico have already indicated their willingness to participate in another peace conference so that the announcement of Denmark's intention to do so will make three of the nations of the world enrolled in favor of President Roosevelt's proposition. Mexico and Great Britain, however, have accepted only in principle leaving the question of date and program for the meeting open so that the time for another conference remains quite indefinite.

The arbitration treaty with Denmark, announcement of which is made in the Copenhagen despatch, will follow the lines of that already signed with France and other countries.

A similar treaty negotiated with Switzerland awaits the signature of the high contracting parties.

Paris, Nov. 11.—France's response to the American proposition for another meeting of The Hague peace convention has not been made, but the officials say that the general principle of the meeting is acceptable. The Temps says United States Ambassador Porter pointed out to M. Delesclaux that if objection was made to another meeting of the peace conference at The Hague, the local federation that might exert influence on the present war, it should be remembered that Russia issued the call for the first Hague meeting during the Spanish-American war.

Mexico City, Nov. 11.—Much gratification is expressed here by the press and public that Mexico and the United States are preparing to negotiate a treaty.

CHARTER REVOKED.

Chicago Federation of Labor Expelled From Parent Institution.

Chicago, Nov. 11.—Formal notice that the charter of the Chicago Federation of Labor had been revoked and that the organization was expelled from the American Federation of Labor was given today. To be reinstated, the Chicago federation will be compelled to expel from membership the local unions of steam fitters and Franklin union of press feeders. Officers of the local federation said today that they had no intention of expelling either of the two unions.

EXCESSIVE RATES TO TRUSTS

Washington, D. C., Nov. 11.—The interstate commission in an opinion by Commissioner Prouty today made public its decision in the investigation entitled "In the matter of divisions of joint rates and other allowances to terminal railroads." It is decided that rebates which have been received by terminals, if any, about the city of Chicago, controlled by the International Harvester Company and the United States Steel Corporation, popularly known as the Harvester trust and the Steel trust have been excessive. The commission has ordered the terminals switching cars to and from roads leading to all sections of the country.

F. AUG. HEINZE OUT

Recent Elections Have Put Celebrated Mine Operator Out of Politics.

Helena, Mont., Nov. 11.—The Republicans of Montana did themselves proud in the election, making a clean sweep of the entire state, national and legislative tickets, with one exception, that of Governor Joseph K. Toole, who, because of his personal nonpartisan attitude, was elected by a majority that will probably reach 5,000. Thomas H. Carter, the Republican leader, will succeed Paris Gibson as United States senator. Mr. Carter being the only candidate for that office. Governor Toole has conceded the defeat of the remainder of the Democratic state ticket. Another feature of the election has been the apparent overthrow of F. Aug. Heinze, heretofore dominant political figure of Butte.

MIKADO'S ANNUAL CHYSANTHEMUM FAIR

Brilliant and Picturesque Function by Court of Japan.

Tokio, Nov. 11.—The Emperor today gave his annual chrysanthemum garden party in the park of the Aoyama palace, where he entertained about one thousand guests. The Emperor, Empress, crown prince and crown princess and their suites entered the park at 3 o'clock and remained for an hour. The weather was brilliant and the display of chrysanthemums a wonderful one.

Sir Claude M. McDonald, the British minister, presented to the imperial party guests at dinner at 7 o'clock. The British minister, Sir Claude M. McDonald, and Sir Wm. Miller, director general of military intelligence of the British war office, who had been with the Japanese army making a special study of the methods of transportation.

DINE AT WHITE HOUSE.

Washington, Nov. 11.—President Roosevelt entertained a number of guests at dinner at 7 o'clock. The guests in honor of J. A. Morley, the British parliamentarian, who is now visiting him.

RAPID TRANSIT RECORD.

Lima, Ohio, Nov. 11.—All records on the Pennsylvania railroad for long-distance runs were broken today by a special train from Crest Line to Fort Wayne, Ind., with General Superintendent Schoyer on board. The distance of 131 miles was covered in 113 minutes.

A BANKRUPT BANK.

Davenport, Iowa, Nov. 11.—Referee J. L. Helmick today declared the Dixon, Iowa, Savings Bank to be bankrupt. The bank is alleged to have been wrecked some time ago by Arnold Benthien, its cashier, who is now a fugitive from justice. Depositors will lose about \$100,000.

A JEALOUS MAN'S CRIME.

Southington, Conn., Nov. 11.—Lawrence Deface shot and seriously wounded Carrie Jinty at her home today, and then shot himself, dying tonight. The girl was shot in the back and it is believed she will recover. She is the daughter of Frank Jinty, who also was in the room when the shots were fired. Jealousy is said to have been the cause of the tragedy.

"KATY" FLYER WRECKED.

Kansas City, Mo., Nov. 11.—The northbound Missouri, Kansas & Texas train, known as the "Katy" flyer, due in Kansas City at 7:40 this morning from Texas and Oklahoma points was wrecked today at South Mound, Kas., eight miles north of Parsons. Every person on board was killed. The wreck had been received up to 11:30. John Farrell, of Parsons, Kas., was killed and ten persons injured.

The Boundary Demarcation

Canadian Members of International Survey Have Completed Labors.

Erection of Monuments From Rockies to the Coast to Proceed.

Roseland, Nov. 11.—The Canadian members of the international boundary demarcation committee have finished their labors and today they left for Ottawa to extend the notes into a report to be finally laid before the government. This party began its labors at the beginning of the season at Port Hill, Idaho, on the Kootenay river and finished its work at Cascade, where its survey joined the work of the American party, which surveyed from Cascade to Midway.

The Canadian party located the sites for the aluminum-bronze monuments which will be put in the section between the Kootenay river and Cascade, B. C.

The American party has almost completed the section between the Kootenay river and the summit of the Rocky mountains and also from the Similkameen to the Skagit.

These two sections, with that between Cascade and Midway, constitutes the American share of the task.

The survey from the summit of the Rocky mountains to the Skagit, a distance of about 300 miles, has practically been completed this year. Next year the Americans will have to do some triangulation and put up the monuments and their part of the work will have been finished. The Canadian party will survey and monument the line from Skagit to the Pacific coast and this will complete the survey.

East of the Rockies the line was satisfactorily delimited some time ago. J. J. McArthur was in charge of the Canadian party.

WHOLE FAMILY KILLED BY ROBBERS

Four People Murdered and Their Home Burnt to Hide Crime.

Auburn, Cal., Nov. 11.—It is now known that Julius Weber, his wife, their 19-year-old daughter Bertha and their son Paul, aged 14 years, were murdered last night by an unknown assassin who set fire to the home in an effort to cover up his crime. Before the fire had made any great headway the bodies of the woman and children were rescued from the burning house. Mrs. Weber and her boy were still alive, but died almost immediately after they reached the apartment. An examination of the bodies showed that Mrs. Weber and the children had been shot before the fire had been started. On the boy's head were several deep cuts, and he also had been shot.

All efforts to reach Julius Weber, the father, who was not thought to be in the burning house, were abandoned until today, when a search was made in the burning timbers and his body was found in the bathroom of the dwelling. He, too, had been shot. This makes the death list as follows: Julius Weber, aged 48; Mrs. Julius Weber, aged 41; Bertha Weber, aged 19; Paul Weber, aged 14.

The body of Mr. Weber was so badly burned that it has been impossible to ascertain how often he was shot. It has been ascertained beyond a doubt that the women were killed in one room and their clothing set on fire, and that they were dragged to the room where their bodies were discovered. One peculiar circumstance is that while the bodies of the mother and daughter were burned to some extent, the apartment in which they were lying was not on fire when the fire broke in, in which showed that they had been killed in some other part of the house, partially burned and then dragged into the room where they were found.

Physicians are holding an autopsy on the body of Julius Weber. The county officials are making a thorough investigation of the tragedy. The autopsy tonight on the body of Mr. Weber disclosed a bullet wound through the throat. The nature of the wound was the same as that in the bodies of Mrs. Weber and Miss Weber, who were shot with a 32-calibre weapon. Owing to the fact that Mr. Weber's body was badly burned, no bullet wound could be found. Two 22-calibre rifles were discovered in the house, but there was no trace of a 32-calibre pistol. The opening session of the inquest tonight did not throw any light on the murders.

U. S. SECRETARY OF STATE.

Washington, Nov. 11.—President Roosevelt this afternoon stated that John Hay would continue as secretary of state during his next administration.

Port Arthur In Exiremis

Russians at Mukden Prepared for News of Capitulation at Any Time.

Believed That Japanese Have Received Larger Additions Than Reported.

Armies Facing Each Other in Manchuria Develop Little Change.

London, Nov. 12.—No confirmation has reached London of the rumors current since November 10 of the capitulation of Port Arthur, that General Stoessel was asking for an armistice, etc. According to the Daily Telegraph's Chief correspondent, Japan has consented to open the Port of Anting to steamers chartered by silk merchants when the latter obtain special permits. This action is due to China's protest that the exclusion of neutral ships would ruin the silk trade.

Mukden, via Tientsin, Nov. 11.—An artillery fire from both sides is continued at intervals. It is heavier on the Russian right wing, where all day November 9th and at during the night the Russians shelled the Japanese positions with their heavy guns. Neither side on that date gained any advantage.

As a result of the heavy bombardment by the Russians, the Japanese have withdrawn some of their batteries from the advanced positions. It is believed that they are not being ready to attack they are falling back to the hills.

The Russians gained great advantage when towards the end of the battle on the Shakkie river they recaptured Lone Tree hill. This hill commands a large part of the plain over which the Japanese must advance.

The operations are about the same each day. There is artillery firing most of the time, and frequent clashes of infantry at night. The soldiers of opposing outposts in close proximity engage in the exchange of cigarettes and other luxuries.

The bombardment last night the Russians threw sixty large shells into the Japanese camp opposite Manion hill.

The Japanese, who during the previous cannonading seemed to have succeeded in searching out the positions of the Russian batteries, for the purpose of covering their operations at night, in the extension of their field works, in the region of the railway, did not reply last night when the Russians attacked them further east.

The Japanese are notably economic in the use of ammunition as though anticipating an early battle, when great quantities will become necessary.

It is known that the Japanese have placed guns of large calibre in the vicinity of the Shakkie railway station, bringing Schiatsu, the next station to the north within range of their fire. The great precautions taken by the Russians their continued vigilance and disposition of their forces would seem to guarantee every advantage to the Japanese in the case of a serious battle.

The demolition of the Chinese houses appears to continue only along the fighting line, where their destruction is necessary for strategic purposes.

Reports of grave condition of the besiegers at Port Arthur here reached Mukden and the Russians here will not be surprised to learn of the capitulation of the fortress.

In the extreme east, the Japanese appear not to have advanced north of Saimachi, and to have concentrated their forces in their centre.

The prevailing conviction is that the reinforcements received by the Japanese have been much larger than reported and consequently it is expected they will attack.

Three imperial Red Cross trains, attached to the Manchurian forces remain constantly in the rear of the army on the Poshu railway and on the main railway.

The positions of the armies on both sides are little changed, though there is continual skirmishing going on with the object of securing minor positions tending to strengthen the respective lines of defence. The Russians are becoming very daring in reconnoitering the whole Japanese lines, some even creeping up to the Japanese trenches and lying concealed there all day and returning at night. The Japanese have constructed in many places double, and even triple and quadruple lines of trenches, wire entanglements, mines and pits.

A Cossack patrol on November 16 penetrated as far as Sandiapu, where they inflicted a blow against a large force of Japanese and then returned to the Russian main line without loss. A patrol also got in the rear of two Japanese companies moving to attack a Russian position. The Cossacks defeated the Japanese and returned safely to the Russian lines.

AN OCEAN TRAGEDY OFF BARNEGAT LIGHT

Lumber Schooner Run Down by Steamship and Four Lives Lost.

New York, Nov. 11.—Four persons lost their lives Wednesday night off Barnegat light in a collision between the United States refrigerator ship Culgoa and the lumber schooner Wilson and Hunting, of Norfolk, Va., according to the story brought here today by four of the survivors of the schooner, which was thrown on its beam ends by the steamship Culgoa, and is now a derelict.

SOUTH AMERICAN TROUBLE.

Guayaquil, Ecuador, Nov. 11.—The Ecuadorian minister to Colombia, Gen. Julio Andrade, has signed at Bogota, a treaty, submitting the Ecuador-Colombia boundary dispute to the arbitration of Emperor William of Germany.

BETROTHAL STORY DENIED.

London, Nov. 11.—The Spanish embassy here authorizes an emphatic denial of the report circulated by a news agency in the United States of the betrothal of King Alfonso to Princess Victoria of Connaught.

RUSSIAN CASUALTIES.

St. Petersburg, Nov. 11.—A corrected casualty list of the ten days battle of the Shakkie river issued by the war office places the total of killed or wounded at 33,250, of which 900 were officers. The first returns, it is explained, contained duplication and some of the men were so slightly wounded that they returned to the ranks in a few days.

A RECORD VERDICT.

Large Sum Awarded Widow for Loss of Husband in Railroad Accident.

New York, Nov. 11.—What is said to be the largest verdict ever awarded, under similar conditions was returned in the Supreme court today when a jury awarded Mrs. Mary C. Gannan \$35,000 for the loss of her husband, who died as a result of injuries sustained in the Grand Central tunnel in January, 1902. Mrs. Gannan sued for \$70,000, and the jury, after hearing the evidence in the case, returned a verdict for half that amount.

Financial Question Worries Japanese

Mikado's Government Would be Willing to Listen to Peace Overtures.

Russia Unable to Win Fighting May Wear out Her Opponent.

London, Nov. 11.—The statement wired from Washington that Japan expressed her willingness to entertain an offer of the good offices of King Edward or President Roosevelt looking toward the termination of the war, but that Russia is not similarly inclined, according to the understanding as to the respective attitudes of the two countries is accepted in London.

It is greatly desired in England that some way be found to restore peace in the Far East, for it is feared that if the war be prolonged indefinitely, the time will come when Japan will be brought face to face with an extremely difficult financial situation. Nobody in this country believes that Russia will come off victorious through superior fighting, but it is regarded as possible that she might win through the exhaustion of the financial resources of her enemy.

Despatches from Tokyo published from time to time are decidedly cheerful on this point, but it seems to be a fact that the financial question is the one relating to the war which causes the Japanese authorities the greatest anxiety. There is no apprehension, however, of a money crisis in the near future.

ARREST CUSTOM HOUSE MAN.

San Francisco, Nov. 11.—Cress Under, who for 25 years has been connected with the custom house in various capacities, was arrested today on a charge of embezzlement. He was attached to the post office branch of the custom service and is accused of appropriating numerous small sums that passed through his hands. He was released on \$5,000 bail.

LONDON GOSSIP BY THE CABLE

Earl Grey Pays Tribute to Canada's National Resources.

London, Nov. 11.—Speaking at a banquet at Newcastle-on-Tyne in honor of his appointment as Governor-General of Canada, Earl Grey paid a tribute to the national resources, giving the most advantageous to those desiring their life. He was glad to know that the Lady of the Snows' idea was fast disappearing. It was not wonderful that Laurier had said the nineteenth century belongs to the United States, but the twentieth belongs to Canada.

At a meeting of the Lancashire Farmers' Association on Saturday it was decided to petition the board of agriculture against opening the ports to Canadian store stock as desired by the Scotch and Norfolk graziers because of the danger of importing disease and the disastrous effect it would have upon the rearing of young stock.

The C. P. R. and the Dominion Steamship Company have decided to put jointly a British-Canada service but only sufficient steamers will be put on to give an arrival in each three weeks. The Western Daily Press commenting on this says: "It is a serious change to reduce the service from the time table affording a weekly arrival to one giving a steamer only once in three weeks. It is to be hoped the last word has not been said on the subject."

GRAIN COMPANY FAILS.

Boston, Nov. 11.—The pronounced rise in the stock market today caused the suspension of the Federal Grain Company of this city, one of the largest concerns of the kind in the country. The company had four offices in Boston and fifty or more in other cities. All branch offices were closed shortly after the announcement of the suspension. In several places attachments have been filed against funds standing in the banks to the credit of the concern.

THROUGH THE CANAL.

Great Precautions at Suez During Passage of Russian Fleet.

Suez, Egypt, Nov. 11.—Confirming the previous announcement from Port Said, shortly after the arrival of the Russian consul there, it is stated here today that owing to prevalent rumors that attempts would be made to wreck vessels of the Russian second Pacific squadron while passing through the canal, the company is taking stringent precautions against blocking and that a strict surveillance on both sides of the canal will be exercised during the transit of the Russian squadron.

Wirings From Winnipeg

The Anglican Synod in Deadlock Over Selection of the Archbishop.

Qu'Appelle Election Is Still in Doubt—Fatal Accident at Fort William.

A Man From Montana Charged With Passing a Bogus Check.

Winnipeg, Nov. 11.—The Anglican synod has reached a deadlock in attempting to elect an archbishop of Rupert's Land and metropolitan. Yesterday the session heard Bishop Haskins' address and then went into an exhaustive discussion on the proposed amendment to the constitution that the house of bishops elect the metropolitan and the diocese elect the bishop, moved by Judge Wattmore, and was lost. Several messages were received from the house of bishops urging haste, but had no effect. One party desired the house of bishops to institute the business, and the discussion on this kept up till late at night and nothing was accomplished.

One of the most peculiar accidents in the history of Fort William occurred yesterday, when Sabatinski, who was working in a coal car, fell through the door of the car onto the switch track, where both his legs were cut off by an engine which happened to be passing at the time. The unfortunate man died while being conveyed to the hospital.

Qu'Appelle election is still in doubt. Returning Officer Lewis, who is collecting the ballot boxes, states that Thompson, Liberal, is elected by twelve. The official declaration will be made November 18th.

INTERESTING CASE.

Calgary, N. W. T., Nov. 11.—H. O. Roberts, a Montana cattleman, charged with attempting to secure an 8,000 acre ranch from David McDougall by means of a check against which there were no funds, has been discharged in the police court. Three weeks ago a young man, accompanied by his wife, representing himself as H. O. Roberts, Montana, registered at a hotel, spent money freely, and was invited out to different residences and conducted himself well. He contracted for a ranch near Melville, owned by David McDougall, the price to be \$42,000, payable half in cash and the balance in four years. He had previously received a draft from Chicago through a local bank and cashed it, the transaction being all right. Saturday, a week ago, he gave a \$22,000 draft for the purchase money, saying that the money for the same should arrive in a few days. In the meantime he went to Banff and was enjoying himself. The cash failing to arrive, he was arrested and brought here for trial. There was no evidence that he had contracted a single debt that had not been paid except the real estate transaction and after McDougall had admitted that when he got the check he knew there were no funds, the case was dismissed. The man released the mysterious stranger. He is still in Calgary enjoying himself.

SLEET IN ARKANSAS.

Hope, Ark., Nov. 11.—Early today a drizzling rain set in and the falling rain was soon changed to sleet, till the streets were covered with a heavy coat of ice. The crops were partly damaged and the weather will doubtless have its effect on the crops.

OF INTEREST TO YOUNG MEN.

Boston, Nov. 11.—The serious falling off in the number of college men who are seeking to enter the ministry was the subject of a conference of educators, editors and leaders of the churches in New England here today. These men came together by the invitation of John Mott, of New York, the general secretary of the World's Student Christian Federation. Other conferences on the subject will be held throughout the country.

WIRELESS EXPERIMENTS.

Satisfactory Tests Made of Transmission of Messages to Great Altitudes.

St. Louis, Nov. 11.—The report of a scientific experimental balloon ascension made today from the world's fair grounds, of the practicability and the fact that wireless messages could be received both as to altitude and distance were satisfactorily tested. More than twenty messages were transmitted from the world's fair wireless office and were received by the operator in the balloon. Paul Knabenschue, of Toledo, accompanied by the operator, W. McQueen journeyed through the air for one hour and a half. Mr. Knabenschue made a safe landing four miles southwest of the grounds. The balloon was carried back in a wagon to the ground. The ascent was made in the presence of several hundred spectators. The highest altitude reached was about two miles.

DRAMATIC INCIDENTS AT FACTORY FIRE

Workers Caught in the Burning Structure Rush With Clothing Alight to River.

Paris, Nov. 11.—A fire in which two men are known to have lost their lives, and which was attended by most dramatic incidents, occurred today in the Paris enamel paint factory at Issy, near Paris. About 1 o'clock a terrible explosion wrecked the building in which 25 men and an equal number of women were employed. Fire broke out instantly and in a few minutes the factory was like a furnace. Barred windows rendered escape from the building difficult. Many women rushed out with their clothing on fire and jumped into the River Seine in order to extinguish the flames.

About ten men and the same number of women were severely burned, several of them critically, and two are known to have died as a result of the fire. It is said that some persons perished in the building.

UNFORTUNATE REPORT.

St. Petersburg, Nov. 11.—There is a persistent but unconfirmed report here that General Grippenberg, commander of the Russian second army, has been stricken with apoplexy at Vilna.

Nanaimo City

News in Brief

Local Agricultural Society Meet
And Elect Officers For
Next Year.

Official Count Makes Some Differences
In Reported
Results.

From Our Own Correspondent.

Nanaimo, Nov. 11.—The annual meeting of the Agricultural Society took place last evening, and proved to be a large and enthusiastic gathering. It was decided that next year the annual show should be held on the society's own grounds and that on two of the show days sports, in which horse racing should be one of the principal features, should be organized. To this end a strong committee was appointed to take the necessary steps for raising funds for laying out the race track and erecting buildings. Officers were elected as follows:

President, J. H. Cocking, vice president, A. C. Wilson; treasurer, J. Booth; secretary, A. E. Planta, all re-elected. Directors—G. L. Schelky, J. Young, J. Shaw, W. E. Norris, B. Shakespeare, J. Stewart, R. Ross, D. H. Beckley, W. Akenhead, H. Aitken, V. Watchorn, T. Weeks, W. H. Kelly and J. Wilson. District vice presidents—S. Mottishaw, Five Acres Lots; John Thomas, Cedar, T. Blood, Nanaimo; H. Craik, Englishman's River; R. F. H. Hickey, French Creek; D. McLean, Cranberry; C. Peterson and T. Deussen, Gabriola; H. R. Wilgess, J. Cottle and J. Meredith, Northfield; H. Bonal, Chemainus; Hon. vice presidents, Mr. Robbins, James Dunsmyr and John L. Howard, Hon. members—W. W. B. McInnes, M. P. P.; Ralph Smith, M. P.; W. Sloan, M. P.; J. H. Hawthorthwaite, M. P.; A. Haslam and T. R. Sackett.

The official count of the ballots for Nanaimo constituency by Deputy Returning Officer Peto made a very considerable reduction in Mr. Ralph Smith's majority, or rather plurality, bringing it down to 280. There were minor discrepancies in several instances between the figures sent in from small polling places and the official returns, but the big difference was caused by a confusion of the figures at the two Sookes and Salt Springs. In each case a return seems to have been sent in including both polling places and later a separate return for the others, which were thus counted twice. The final result was as follows: Panton, 1,117; Smith, 1,392; Wolley, 1,100. In each case a return seems to have been sent in including both polling places and later a separate return for the others, which were thus counted twice. The final result was as follows: Panton, 1,117; Smith, 1,392; Wolley, 1,100.

"When is a sidewalk not a sidewalk?" is a question which sounds like a conundrum. Magistrate Yarwood has undertaken to answer it in the city police court. For the least year or two the city council has been replacing the wooden sidewalks of this city with gravel and concrete paths, wherever practicable. More recently the police commissioners have instructed the police to put a stop to bicycle riding on sidewalks. Mr. L. Munson, a prominent storekeeper, violated the ordinance and was caught in the act. He pleaded guilty before the court he set up the plea that he was riding on a gravel path and that a gravel path was not a sidewalk. Mr. Yarwood was rather taken by surprise at this defence and decided to leave the case for a few days to look up the authorities on sidewalks in general and gravel sidewalks in particular.

MISS EVA BOOTH'S SUCCESSOR NAMED

Commissioner Coombs Is Appointed—Was Former Organizer of Canada.

New York, Nov. 11.—Officers from the steamer Arcton from the east and as far west as Chicago tonight gave a farewell dinner at army headquarters here to Commander Booth-Tucker, who has been called from his command in America by General Booth to assume the office of secretary in England. Light hundred officers and their families attended. All the speakers praised the commander for his untiring energies in behalf of the army in the United States and Canada and referred particularly to his originality in revising methods for making the work of the army more effective.

Commander Booth-Tucker in replying said: "I hand over the command with the greatest satisfaction to one who has the genius and eloquence of her father." The dinner was in the evening, the beginning of a series of farewell ceremonies, which will culminate with a meeting in the Grand Central Palace next Tuesday night.

The members of the army will tomorrow attend the dedication of the monument to Consul Mrs. Emma Booth-Tucker, at Kentville, which will be raised

Coroner inquest on

Gilley's Death

Post-Mortem Physician Gives Non-Committal Evidence to Jury.

Empire Fete by Women's Auxiliary Draws a Very Large Attendance.

From Our Own Correspondent.

New Westminster, Nov. 11.—The coroner and jury in the Gilley inquest yesterday from 10 a. m. until 3:30 p. m., and then adjourned to Tuesday next in order to secure further evidence. Dr. Walker, the post-mortem examination on the body of the late Geo. W. Gilley after it was recovered from the Fraser, testified that the deceased met death by drowning, also that the deep wound in the skull might have been caused by the fall on any of the wooden articles there strewn about or by some dull weapon in the hands of another person. On the whole the doctor's evidence was non-committal. Witnesses were examined to show when the body was found and how it was reported to the police and the delay of the latter acting in the matter. No startling developments were given out as the result of the work yesterday and very little light was cast on the unfortunate affair. The final hearing will come off at 10 a. m. next Tuesday.

The regular monthly meeting of the New Westminster Board of Trade was held on Wednesday evening, but no business was transacted beyond the election of Mr. J. R. Kennedy as the successful Liberal candidate in the recent elections, as a member of the board.

The Empire Fete under the auspices of the Women's Auxiliary of the Royal Columbia hospital opened yesterday afternoon in the armory with a large attendance. In the evening the City Band furnished music and again a great many people turned out to take in the fete. This entertainment will be brought to a close this evening.

Both of the local football teams are billed for schedule matches on Saturday. It will not be long till one of the Royal City aggregations will be going after some of the soccer players of the island.

PREMIUM ON PERJURY.

London, Nov. 11.—The Standard's St. Petersburg correspondent cables that the Russian government has announced handsome rewards will be given for information proving the presence of suspicious vessels in the North sea at the time of the Doggerbank incident, or any other facts connected with the affair.

THE PARAGUAYAN EMUTE.

Buenos Ayres, Nov. 11.—Notwithstanding the report of battles between Paraguayan government troops and revolutionists the fact is that there has been nothing serious about the matter. The Paraguayan government has purchased arms here, which are now on the way to Asuncion. An influential committee has been formed at Buenos Ayres with a view to bringing about peace in Paraguay.

COALING BALTIC FLEET.

Satisfactory Arrangements Made Between Japan and France.

Paris, Nov. 11.—The Japanese minister, Dr. Moxton, has a lengthy conference with Foreign Minister Delcasse today, in view of the observation of neutrality, particularly in recalling the Russian second Pacific squadron at Madagascar and other French possessions. It is understood that a satisfactory understanding was reached.

LADYSMITH NOTES.

Dense Fogs Cause Great Inconvenience Both on Land and Sea.

Ladysmith, Nov. 11.—The dense fog prevailed again this morning and did not lift until after the noon hour. No object could be discerned at twenty yards distance, and along the water front the fog hung like a wall right to the water's edge. Vessels coming into the harbor were obliged to creep along at the proverbial snail's pace. Great precautions were taken among the craft, and by careful management the Shamrock, the Oscar and Selkirk made their moorings safely. The Transvaal did not arrive until after one o'clock and shortly after the fog lifted to such an extent as to allow the boats to approach the wharves to get away. The steamer Portland with 900 tons of coal aboard went north. The Selkirk after discharging her cargo for the Tyeo smelter and for the wharves, left again for a like cargo. The tug Albion departed towing the Alexander to Union, the tug Shamrock took on fuel and left for the Cape and the Oscar went south when loaded. All these vessels pulled out before the fog came and the wharves were left quite empty.

The steamer Lithuania is due for a cargo of coal for San Francisco. The steamer Wyld from Nanaimo, bound for the same port, was befooled last night and did not get away until today. Equally disastrous was the case of the very rails on the tracks, and the engines and train crew were unable to discern even the front of the locomotive. Whistles constantly tooting and bells ringing, the trains rolled slowly through the mist, looming up twice as large as their real size. No. 6, the freight engine that collided with No. 34, the coal train, is now being repaired at the Wellington shops. Until a special engine arrived from the north yards, the Wellington Colliery Company's engine rendered assistance. The crew of the damaged freight went aboard the coal locomotive and continued their duties until the special arrived.

Plans for the new city hall, laid out by Mr. William Nicholas, have been accepted by the city council. The cost of the building is roughly estimated at \$1,250, and will include, besides a fire hall and jail, offices for council chambers, and about thirty artists' studios, will be erected with the front on Tolbert street, above the Carlisle block.

Now that Chief Arthur Morrison of the Ladysmith fire department has resigned his position, applications are being asked for to fill the place.

Work is steadily progressing on the new bridge over Nanaimo river, above Cassidy's siding. A large gang of workmen, under Mr. D. McMillan, is doing all that is possible to be done before the bad weather sets in, and if favored with dry days, the structure will be completed by December 10th. It is reckoned to cost near \$1,600 and will be a single-truss bridge and a great improvement on the old one.

The first assessment roll for the city of Ladysmith is now being prepared by the city clerk, Mr. J. Stewart. Taxes will be collected in March of next year. The assessment will be on both land and improvements at the rate of 60 per cent. of actual value.

Two men were hurt today in the city of Ladysmith on the morning shift. A Slavonian working in No. 2, was, in some unaccountable way, badly smashed and cut about the head and face and was taken to the Nanaimo hospital this afternoon. A Finn also received severe injuries, and it is feared his leg is broken. The unfortunate man was brought down this afternoon. Both men were residents of this town, having lived here a number of years.

Federal Capital

Cabinet Council Decides to Recommend Clemency to Wife Killer.

False Ballot Boxes Were Entered From United States as Beehives.

Ottawa, Nov. 11.—The return for Ontario and Quebec members including Sir Wilfrid Laurier, in tonight, will be gazetted tomorrow. Sir Wilfrid Laurier, it is said, will spend three or four weeks in Southern California, returning about the beginning of next year.

At today's meeting of the cabinet it was decided to recommend to His Excellency that the death sentence imposed on the murderer, the Montreal wife murderer, should be commuted to penal servitude for life. Hogue was to have been hanged on the 18th. There were mitigating circumstances, which warranted executive clemency.

Chamberlain, a government detective, is in West Hants investigating the false ballot box affair, which was discovered by Mr. Porter, M. P., on polling day. While no positive information can be procured here, it is said all the cases collected makes a very damaging case against the deputy, in whose premises five false boxes were found. With unconscious irony a party bringing the boxes from the United States entered them as beehives.

Montreal, Nov. 11.—An interview with the Premier today. Berthiaume still retains a controlling interest in La Presse and efforts are being made to have La Presse resume its former policy in regard to the fiscal policy. Berthiaume gave an offer of a good round figure to a syndicate who wish to have control of La Presse and there is a prospect of it going through.

E. B. Wade will be offered the position of chairman of the railway commission, but Mr. Chrysler has a pull.

Mr. Aylesworth has not decided whether he will accept Mr. Lemieux's offer of Gaspé. He intimated this in a letter to the solicitor general today, in which he thanked Mr. Lemieux for his kind offer. Aylesworth said he would visit Ottawa next week.

Missing Man Was

Seen at Vancouver

Millionaire Scientist Disappears and Is Located at the Terminal City.

Lulu Island Farmers Complain of Rough Riders on Their Land.

From Our Own Correspondent.

Vancouver, Nov. 11.—Local papers claim that Dr. Neil S. Phelps, of Battle Creek, Michigan, the millionaire scientist, who mysteriously disappeared from Chicago a year ago, has been living quietly in Vancouver for nearly the whole of that time under the name of Dr. Phelps. He resided at Mr. Chris. Foley's boarding house and made many remarkable cures in bloodless surgery for which he refused to take any fee. At times he became so depressed that he got on protracted sprees. His identity was discovered by a published photograph in a Chicago paper. He suddenly disappeared from here six weeks ago.

Lulu Island farmers are complaining bitterly of the "rough riders" who come to the island to shoot game. Mr. Thomas, a Lulu Island farmer, called on the provincial police today and stated that a Vancouver man whom he thinks he recognized on Carroll street, had come to the island to shoot. The farmer had ordered him off his property, when the man put the muzzle of his gun to the farmer's stomach and cocked the gun. When the farmer very gently disengaged himself, he ran to his house for his own gun and the man disappeared.

Mr. Thompson says that Vancouver men go out there and trample over their ground, tear down their notices warning them off the property and put a charge of buckshot into the fence where the noise was, shoot into their cows to scare them, and secure the horses until they huddle themselves in a corner of the field and tremble. Worst of all, the birds that eat bushes of their feed and come out in the fall fat and sleek, are for their own use, and they consider, are slaughtered so fast by the Vancouver hunters that they have little chance to do what shooting they desire themselves. From the description of the Lulu Island farmers, the men about Vancouver who go shooting on the island do not all act like gentlemen. In fact, it is no doubt that Mr. Thompson's description refers only to a small number of them.

Hospital Board.—A meeting of the board of directors of the Provincial Royal Jubilee hospital will be held at the Board of Trade rooms on Wednesday evening next for the transaction of general business.

News Notes Of

The Dominion

A McGill Professor Wins Great Honor From the Royal Society.

Manitoba Settler Is Set Upon by Wolves and Has Narrow Escape.

Montreal, Nov. 11.—A cable was received here today announcing that the Royal Society of Great Britain had awarded the Rumford medal to S. Ruth, professor of physics at McGill, for his researches in radio activity. The Rumford medal was instituted by Count Rumford in 1796, and is awarded every second year to the author of the most important discovery or useful improvement during the preceding two years on heat or on light, the preference being given to discoveries that tend most to promote the good of mankind. Prof. Ruth is the youngest man to ever win the medal, which has been awarded to such famous scientists as Davy, Biot, Faraday, Pasteur, Tyndall and Röntgen. He is a New Zealander by birth. He was one of the leading contributors to the two recent scientific congresses in St. Louis.

PRISONER SUICIDES.
Kingston, Nov. 11.—Justus Mittelstätt, in prison for life for killing an Eganville man with a pick, suicided by hanging himself in the insane ward of the penitentiary this morning.

AN INHUMAN FATHER.
Toronto, Nov. 11.—The jury today brought in a verdict of guilty against Martin, the father of an infant murdered last summer. The mother was acquitted. The child, it was alleged, was done away with because the parents could not support it.

IN NORTH ONTARIO.
Beaverton, Nov. 11.—Official majority of Grant, Liberal, in North Ontario is 1,280.

REGULATING COMPANIES.
Halifax, Nov. 11.—The Nova Scotia branches of the Canadian Manufacturers' Association, at a meeting last night, decided to ask the government to place express companies under the jurisdiction of the railway commission.

SETTLER'S NARROW ESCAPE.
St. Catharines, Nov. 11.—Word comes from William Chestney, a young man belonging to this city, who went to Manitoba last summer, that he has had a terrible experience with prairie wolves. As he was ploughing in the field he was set upon by two wolves, which attacked him with great ferocity. Chestney, with the aid of a stick, killed one of the brutes. Timely assistance saved him from probable death, as the other wolf had jumped on Chestney's shoulder. Chestney has terrible bites on his arm and shoulder.

MR. PARR ELECTED.
Orangeville, Nov. 11.—Barr, Conservative, was elected in Dufferin by a majority of 1,286 over Park, Liberal, according to official figures announced today.

For ladies' boots and shoes, no ordinary shoe polish will do. You may ruin fine leather with acid or turpentine preparations, and then if the polish is not "fast," delicate clothing and lace may be soiled beyond redemption.

Lumber Question A Live Topic

Able Criticism on Problem Appearing in the Commercial of Winnipeg.

Present Season a Bad One For the Manufacturers in the West.

The following letter, appearing in a recent issue of the Winnipeg Commercial, will be read with interest by all connected with the lumber industry and the public generally:

Some six or eight months ago the lumber question suddenly became a live topic to the press and public, and, after the lapse of some of the ill effects that afflicted the body politic, the question was suddenly dropped out of view. In a discussion of anything of such commercial importance to the great west, "transportation" naturally came in for its share of investigation. This railway companies resented inasmuch as they felt they were unfairly criticised and as a measure of their disapproval they have left their card in nearly every station throughout the West. It may be a case of "letting sleeping dogs lie," but we believe lumbermen are easily competent to arrange matters to help the trade were the laws do not give sufficient protection.

The present season has been a disastrous one for lumber manufacturers and for many years they had an uphill struggle. It is true they have had a few prosperous seasons, and it was coming to them. The awakening of the West to her possibilities has made fortunes in many other lines of manufacture, but their establishment, being situated in the East, where they spend their money, their good luck is not so apparent to Westerners.

That a prejudice exists against the lumber dealers there is no use denying. The basis of this feeling is variously accounted for. One reason, no doubt, is from the fact of so many of the settlers of 20 or 25 years ago coming from the Eastern provinces where they were accustomed to buy their lumber for \$7 or \$8 per thousand. Many of them still have their own timber land and had it manufactured into lumber for \$2 or \$3 per thousand, and gave logs in exchange for sawing, but it was a horse of a different color when they "hit" the West with their rigorous climate, where every board of lumber had to be shipped in over railways which were struggling to earn dividends.

These facts had their effect on struggling settlers. No wonder they complained, for in many districts a log house was not possible, and lumber men had to let these stout-hearted old-timers go East today and they will find the difference in cost as compared with the West would not keep them in tobacco very long. The "down-easter" had to house his whole crop, and lumber bars are a prime necessity, which is not the case out here. Again, there is not a lumber dealer in the land but will testify to the fact that ninety-nine farmers out of every one hundred take a high-grade grade of boards when a cheaper would often do as well. Short and narrow boards, generally the soundest and always the cheapest, are discarded because they may take a few hours longer in handling. Fine shingles, if put on a roof judiciously would do for many outbuildings as well as Western cedar and are at least \$1 less per thousand, but they will not use them. This applies all the way through, proving that the price is no handicap.

What about the free admission of so much lumber from the south? Is it right and is it an advantage? We think not. Canada has perhaps more lumber wealth than any other country in the world. She has up-to-date manufacturing concerns that can more than supply the demand. As this expands, there are millions of money ready for investment in more mills. The number of small operators East and West is legion, and is increasing rapidly. These are obliged to sell to keep going, so to speak. Their

product cuts a figure, and all told, a disproportionate priced lumber product could only be of short duration. Free lumber! What a godsend it has been to the manufacturers of Minnesota, Wisconsin and Washington, just when they needed it! Owing to their trading paralyzed at home, it has worked right into their "mitt" and they are chuckling. It has even been this. No wonder Canadian diplomats going over to negotiate at Washington are shown the West and House and as indirectly shown out, for Uncle Sam can always work as without bothering himself as to what he need give in exchange.

What would up-to-date wideawake and self-respecting statesmanship have dictated just at the juncture referred to? It would have said: "Free lumber! But we will just take this chance to show you Americans we are an appreciable quantity after all, and will for the present 'cut out' free lumber. This formerly remainder would arrest their attention and could be made the basis upon which to negotiate for concessions of wider importance and, indirectly, of more benefit to the Dominion as a whole than the temporary advantage free lumber is to one section of the country."

Napoleon said of the British officer who bartered him in Egypt, "That man made me miss my destiny." Canada would seem to have repeatedly missed her destiny in treaties with the United States. But we like the Americans. We are pleased to have them invest in our lands and timber. We heartily welcome them when touring through the country inspecting our broad acres; but, if they started bringing their lumber trucks with them, we would not be so demur as we have the very best wheat in the world and what is the matter with our lumber that we require to import theirs?

The posting up of lumber prices in stations by the C. P. R. was an unbecoming proceeding and unbecoming in a corporation of such proportions. While they may have been justified in representing the references to their freight rates by the Retail Lumbermen's Association, it shows too mighty a grip on the commercial life of a section of our business community to have their wholesale prices published. The result to the consumer has been ill, in fact, it has been a detriment to him, for since the publication of these prices by the railway company, the wholesale price of lumber has declined, but the retail dealer is not down in the same proportion, for he has the C. P. R. helping him to maintain his figures, and the consumer gets his bill filled accordingly.

To sum up, the average yearly profits of the manufacturers East and West have not been excessive, and as far as the retail dealer is concerned his lot cannot be said to be a desirable one. He is obliged to keep a big stock, which takes up money, and at the same time, customers for perhaps \$5 to \$15,000, much of it without interest. Many dealers wince under the pressure, and would gladly unload if they saw a chance. Yours truly,

EDGE GRAIN.

NEWS OF THE ARMY AND NAVY

Brief Items of Interest Concerning Both Branches of the Service.

From Our Own Correspondent.

London, Oct. 28.—(Tele. Brit.)—The British fleet, which has the happy knack of being there, or thereabouts, when it is wanted, Russia would not have climbed down so gracefully to outraged Great Britain. She is still mistress of the seas, and shall be even over it is brought home to the west, thinking how much we owe to our matchless navy.

Lord Grey will leave here for Canada about the 1st of December to take up the duties of Governor-General. Colonel Hanbury-Williams will leave for Ottawa on the 2nd proximo, per the steamer Tunisian, on appointment as military secretary.

The cruiser St. George, flying the broad pennant of Commodore Frank Funn, commanding the South Atlantic squadron, has been ordered home from the West Coast for repairs to her machinery, which has given considerable trouble.

Reuniting for the Irish Guards has been requested, and it is understood that the long-talked-of second battalion will be added to the regiment. None but genuine "sons of the soil" will be enlisted. It seems rather curious that the army council contemplates adding a battalion to one end of the army whilst Mr. Arnold Forster is threatening to cut off five garrison battalions at the other. The Russian crisis is giving the latter a reprieve for the present.

Following the order for 50 of the new 182-pound quickfiring field guns at Woolwich, orders have been received at the shell foundry for the manufacture of 20,000 shells for that gun, so that the six batteries and reserves will be ready for use as soon as completed. An order for 20,000 shells for the new 122-pound quickfiring, with which the Royal Horse Artillery batteries are to be re-equipped, has also been put in hand at Woolwich.

It is understood that when the first-class battleship King Edward VII. is completed for sea, she will be commissioned for service with the Mediterranean fleet. The battleships of this type have a displacement of 16,350 tons, engines of 18,000 horse-power, a speed of 18.5 knots per hour and an armament of four 50-ton 12-inch guns, four 9.2-inch guns, ten 6-inch and twenty-eight smaller quickfiring. The crews must number 500 all told.

Earl Fitzwilliam, D. S. O., who recently purchased the Castle Lher, which he renamed the Veronique, will join her at Panama next month for a lengthened cruise in the Eastern Pacific. His shipboard earned his decoration in the late war in South Africa.

HER HUSBAND WAS A DRUNKARD

A pathetic letter from a lady who cured her husband of his drinking habit. Story of her successful struggle.

Had been thinking of young Samaria in Remedy for my husband's drinking habit, but was told he would never be cured. I had given him the thought, unaverted me, and I hesitated for over a week, but one day when he came home badly intoxicated and nearly all his money spent, I decided that something must be done to save my home. I sent for your remedy and put it in his coffee at dinner time. I kept him watching and praying for the result. He never suspected anything and I no longer hesitated but gave it to him regularly. Very soon I was overjoyed to hear him say to a friend that he was taking a dislike to whiskey. This was the beginning of his cure and I had given him the remedy. He had stopped drinking altogether. I sent for another lot, should he relapse, but he never has, and I once more enjoy a happy home, and a share in the good things of life. My husband is again attentive and loving and I need hardly say that I think the world of your remedy.

Fire in Weiler's Furniture Factory

Flames Broke Out In Wooden Part of Establishment Doing Damage.

Valuable Machinery on Ground Floor Escaped Without Much Injury.

Damage to the extent probably of \$2,000 or \$3,000 was done by fire last night in the wooden portion of Weiler Brothers' furniture factory, Humboldt street. On the ground floor in this building is situated the boiler and a large quantity of valuable machinery, and the second floor was occupied with cabinet works. Except for the damage done by water the machinery is practically unimpaired, as the fire, although starting, it is surmised, from sparks from the furnace on the ground floor, practically was confined to the upper story where it cleaned up nearly everything in sight and destroyed a large portion of the roof and walls.

It is believed that the fire had been smouldering for some time and when it burst into flame it had acquired a considerable hold. Much of the stuff in the building was of a highly inflammable description and had there been a strong wind blowing the result might have been very serious. As it was, when the fire brigade arrived on the scene at about ten minutes to 9 o'clock, the flames were not very extensively extinguished and a large quantity of water was poured over and into the building before the fire was got under. Under the direction of Chief Watson the men worked well, and the hose was taken to the roofs of the burning building and the adjoining brick building while another was hauled up a ladder into a second-storey window where it did good work.

In speaking of the fire to a Colonist reporter last night Mr. Otto Weiler said that it was impossible for him to form any estimate of the damage done until the morning. He did not, however, regard the loss as serious, and the building and contents are well insured.

Mr. Weiler said that the cause of the fire had not been determined. The foreman had "looked up the place as usual" he said, and everything had appeared to be in order and secure.

The fire attracted a big crowd of citizens and made for a time quite a brilliant display as viewed from the causeway.

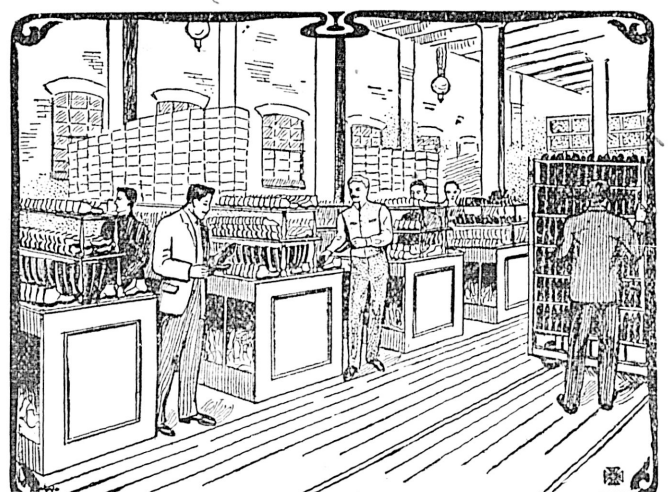

CORTICELLI HOME NEEDLEWORK.

The fourth quarter of this excellent magazine is now being mailed to subscribers. The edition is an excellent one and all lovers of fancy needlework should not be without a copy. Just think, some 96 pages of instructive reading matter besides numerous colored plates mailed to you for only 15 cents or for a year four numbers for 50 cents. Do not miss sending for a copy. Just think, needed to help you with your Christmas gifts. Corticelli Silk Co., Ltd., St. John's, P. Q.

When organized some four years ago the syndicate was capitalized at \$250,000 in 400 shares at a par value of \$625. No shares were ever disposed of below par. Now it is proposed to increase the capitalization to \$625,000 by the creation of 600 additional ordinary shares at a par value of \$625. Each of these new shares is to rank on an equality with those issued in the first instance.

On Tuesday the shareholders will be asked to subscribe to a resolution authorizing the directors to enter into an agreement with Henry Stern, of New York, for the underwriting of 400 shares of the new stock at par, provided the said Henry Stern will subscribe for an additional forty shares at par, and will undertake to write, if necessary, to meet the company's liabilities, an additional forty shares at par. It is further provided in this resolution that, notwithstanding such agreement with Henry Stern, and as a term thereof, the 400 shares shall first be offered to present shareholders at par in proportion to existing individual holdings, such offer to remain open for twenty days from the time it may be made.

The plan of some months ago that the Britannia Copper Syndicate should be absorbed by the Hays Sound Copper Company has been abandoned in favor of increasing the capitalization of the present organization.

New Regulations For The Navy

Small Squadrons to be Absorbed Accounts for Departure of Grafton.

New Naval Programme Outlined in the Old Country Papers.

The London Daily Graphic of the 26th ult. arrived last night, and contains particulars of forthcoming changes in the naval affairs of the Empire. One of the first items mentioned is the intention of the admiralty to draw in all the small squadrons and combine them in larger ones. The reason being that, under the old arrangement, the officers and men were not in a position to secure proper training. It is the intention to form large cruiser squadrons, which will be sent around the world. The ordering home of the Grafton is no doubt the outcome of the new programme about to be adopted by the admiralty.

Another change will be the substitution of two-year commissions instead of three, as at present. The use of paraffine oil on coal is a new departure which is intended to permit of the use of a less expensive coal than the Welsh fuel, now in use. To the end that the lords commissioners may have an independent supply of oil, control of an oil field has been secured, but the locality of this latter is not stated.

It has also been decided to diminish the number of surgeons, paymasters and chaplains, and the appointment of captains to admirals' rank will in future be by selection instead of by seniority, as at present.

BRITANNIA MINES.

Copper Syndicate Now Seeking to Increase Its Capital.

Notice of an extraordinary general meeting of the shareholders of the Britannia Copper Syndicate on Tuesday next has just been issued, says the News-Advertiser. The meeting is called for the purpose of increasing the capital of the syndicate from \$250,000 to \$625,000, largely in order to enable the work of development now proceeding to be carried to a successful conclusion.

Resolutions dealing with the increase in capitalization have been prepared, and if passed at the meeting they will be submitted for confirmation as special resolutions to a second extraordinary general meeting to be called subsequently.

When organized some four years ago the syndicate was capitalized at \$250,000 in 400 shares at a par value of \$625. No shares were ever disposed of below par. Now it is proposed to increase the capitalization to \$625,000 by the creation of 600 additional ordinary shares at a par value of \$625. Each of these new shares is to rank on an equality with those issued in the first instance.

On Tuesday the shareholders will be asked to subscribe to a resolution authorizing the directors to enter into an agreement with Henry Stern, of New York, for the underwriting of 400 shares of the new stock at par, provided the said Henry Stern will subscribe for an additional forty shares at par, and will undertake to write, if necessary, to meet the company's liabilities, an additional forty shares at par. It is further provided in this resolution that, notwithstanding such agreement with Henry Stern, and as a term thereof, the 400 shares shall first be offered to present shareholders at par in proportion to existing individual holdings, such offer to remain open for twenty days from the time it may be made.

The plan of some months ago that the Britannia Copper Syndicate should be absorbed by the Hays Sound Copper Company has been abandoned in favor of increasing the capitalization of the present organization.

EDISON THEATRE

ALL THIS WEEK.

2 Shows Nightly.

Matinee Every Day (Except Monday at 3)

The day of Thanksgiving is near upon us, and, as usual, the B. C. Market is to the front with a supply of nice, plump Thanksgiving Turkeys. As advertised elsewhere in this paper, the supply is limited, so that those who get left have but themselves to blame, as the "early bird" invariably catches the worm."

30 Fort street. Merchant Tailor.

Legal Business.—There will be a session of the Supreme court in chambers this morning, when the business of the week held over by reason of the absence of the judges in Vancouver will be transacted.

Soliciting Subscriptions.—Donations of money to assist in the rebuilding of the Rivers Inlet hospital are being solicited in town. The hospital was destroyed by fire on the 20th of August last.

Annual Meeting.—The annual meeting of the British Columbia Agricultural Association, will be held on Tuesday evening next. All members are requested to bear this in mind, as, besides the many reports to be dealt with, the most important business of the association will be transacted on that day.

Thanksgiving Social.—The Lady Companions of the Forest, B. C. Circle, No. 118, will entertain their friends on Thanksgiving night, Thursday, 11th inst., at the Sir William Wallace hall, on Broad street. The affair is in the hands of a committee of popular ladies whose experience and success on former occasions give promise of an entertaining and delightful social event.

The Cambridgeshire.—The English papers containing details of the Cambridgeshire handicap are to hand. All those holding tickets which drew horses in Mr. Salmon's sweep are requested to call and cash their tickets as soon as possible. Owing to the large number of starters there has been some delay in getting an accurate list of the horses who started in this race.

Official Count.—At Nanaimo on Thursday the official count in the late election for Nanaimo constituency was made. It gives the Liberal candidate a plurality of 286 votes. (The exact vote was as follows: Ralph Smith (Liberal), 1,392 votes; Capt. C. Phillips-Woolley (Conservative), 1,106; Wm. Penton (Socialist), 717. There were 20 spoiled ballots and 13 rejected.

Y. M. C. A. Lecture.—At the Y. M. C. A. rooms on Wednesday evening next an interesting lecture will be delivered by E. O. S. Schofield, the provincial librarian, on "Spaniards on the West Coast." The address is reported to be most interesting and instructive and large attendance is expected. A programme of vocal and instrumental selections is being arranged.

A Bottle Message.—According to private information received from Bamfield creek yesterday afternoon, a bottle had been picked up on the beach there containing a message dated October 9th, and stating that Josephine Cameron, Jessie Leslie and James Brouette have been lost. No further particulars are contained in the message except that the vessel is the H. M. S. H. W. Ward, of 515 Sixth avenue, Seattle, be notified.

Salvation Army.—This evening at the Salvation Army hall, Capt. Bryan, of the Spokane division, will give a lecture on "The Filipinos as a people." On this subject the captain is well qualified to speak, as he was a missionary among these people during the war. On Monday evening there will be a splendid reproduction by moving pictures of the great international congress, showing many thousands of Salvationists of all nations in their respective native costumes.

Kennel Club.—The effect anticipated as resulting from the reduction of the Victoria Kennel Club membership fee from \$2 to \$1 a year. It has not yet been definitely decided when the winter parlor shows under the auspices of the local club will be inaugurated. The probability, however, is that they will be commenced at an early date. Expert fanciers are looking forward with some interest to the clash expected between the Western Kennel League and the American Kennel Association in the spring.

Coming to B. C.—Messrs. Edwards Bros., photographers of Vancouver, have received a letter from R. Bladen Taylor, of Kikuyu, Uganda, British East Africa, who is considering coming out to British Columbia, and asking to be placed in communication with some suitable agent here who will furnish him with the price of good land adjacent to Victoria or Nanaimo, or of a ranch on Vancouver island. His intention is to take up poultry farming, if a suitable property can be obtained and the price asked therefor is reasonable.

Shoot For Prizes.—This year the usual Thanksgiving shoot for prizes donated by the merchants of the city was held at the Victoria Golf and Country Club. The company teams' competition on that day, however, for the Gregory cup and Bankers' trophy. Both these cups were won outright some years ago, but for want of something new they are called on for further exertion. Entries for the cups, with names of teams, must be made to the secretary of the Rifle Association before shooting commences, at 500 yards. The usual markers' fees will be charged all who shoot.

An Active Missionary.—One of the most active workers amongst the Methodist missions of the Far East, is the Rev. J. W. Wadman, formerly of Victoria. He has been appointed superintendent of the Methodist Episcopal church for Korea and Japan and pastor of the English church at Honolulu. Rev. Mr. Wadman formerly lived here, and has many Victorians among his friends. His future headquarters will be at the Hawaiian capital, where he will be pleased to welcome all Victorians who visit the Pacific island. It will be remembered that upon his recent visit here he gave an interesting account of existing conditions in the Mikado's kingdom.

Promising Property.—One of the most promising mining properties in the vicinity of Ladysmith is that controlled by a Victoria syndicate, at the head of which is H. Cecil. Mr. Cecil, who is now in the city, reports having struck an exceedingly rich vein of boronite ore several days ago. It is about seven feet wide and runs through the whole property. Mr. Cecil estimates that it will assay at least \$40 to the ton. He brought down with him some splendid specimens. As a result of this discovery operations have been commenced. Ready three or four large shipments have been made to the smelter, and it is expected that a modern compressor and other necessary machinery will be installed within a few weeks.

Canadian Officer Missing.—Captain Ryan, of the Canadian militia, Kentville, N. B., has been missing since the arrival of the steamer Machaon from the Continent about two months ago. Captain Ryan was a passenger on that ship and was supposed to have landed here, but at the time he could not be located in the city by the reporters. It is surmised that if he got off the vessel here he would have been located and proceeded to the South Island. The Canadian received enquiries from Major Colville, of the intelligence department, Ottawa, and it is feared that he must have met with some misadventure. Captain Ryan was sent South Africa and was in the Orient, and it is feared that he was unsuccessful and was on his way back to his home when he reached this city.

CHAMBERLAIN'S COUGH REMEDY
AIDS NATURE.
Medicines that aid nature are always most effective. Chamberlain's Cough Remedy acts on this plan. It attacks the cause, relieves the distress, soothes the inflamed membrane, opens the secretions, and aids nature in restoring the system to a healthy condition. It is famous for its cures over a large part of the civilized world. Thousands have testified to its superior excellence. It counteracts any tendency of a cold to result in pneumonia. For sale by all Druggists.

MONTHLY MEETING OF THE TEACHERS

Interesting Paper Read on Importance of Grammar in Public Schools.

The regular monthly meeting of the Victoria Teachers' Institute was held in the Y. M. C. A. assembly room yesterday afternoon, Mr. A. B. McNeill, president, in the chair.

After the reading and approval of the minutes of last meeting, the president intimated that an invitation had been extended by the Mainland Teachers' Institute to the Victoria teachers to be present at their annual meeting on the first two teaching days of next term. He then stated that he had requested the staff of the High school to make some criticisms on the teaching of English in the public schools, and called on Mr. Paul to open the discussion. After a few opening remarks by that gentleman, who requested the forbearance of the teachers should any of the criticisms about to be made prove unpalatable, Miss Potter read a very able paper, in which she discussed the teaching of grammar in the schools, and remarked that, in her opinion, mental training and discipline were sacrificed to the amount of information imparted, and that it would be better if there were less grammar, as it is taught, in the schools.

Miss Camm followed, giving high praise to the teaching of literature in the public schools.

Mr. Paul then stressed the importance of more mature study, which stimulated the observing and thinking powers of the pupils.

A short recess was then taken, during which Mr. Barron, of the Oak Bay School, accompanied by Miss McGregor on the piano, gave a violin solo, which was much appreciated, after which the examiners' criticisms on the entrance papers were discussed by Mr. Tait on the subject of writing and punctuation; by Mr. Gillies on grammar, and by Miss Williams on form.

Miss Cameron, with a few well-chosen remarks, closed a very instructive meeting.

Police Court.—In the Police court yesterday Chas. E. McLennan was remanded to the 14th inst. on a charge of vagrancy. Wm. Miller, charged with the theft of a bicycle and obtaining money from Mr. Plimley on false pretences, was remanded to today. An Indian named Wheeler was fined \$56 for drunkenness.

Wharf Offices.—Work on the office buildings on the new C. P. R. wharf at the southern end of James Bay will be commenced on Monday next. Shearman, the contractor, left for Vancouver this morning to supervise some work which he has in hand in the Terminal City, and on his return will put a big gang to work in completion of his contract with the C. P. R. in the city. Mr. Shearman stated that the construction of the offices will occupy approximately two months' time.

Pipe Covers Stolen.—The police will make every effort to discover who is the latest offender in the business of removing pipe covers from the concrete sidewalk. Last evening it was reported that several had been removed from the new sidewalk in King's road, and examination showed that no less than five had disappeared. The removal of these iron covers is serious. It is especially in view of the fact that accidents might very easily result to pedestrians.

Trade With Australia.—Mr. W. R. Holloway, United States consul-general at Halifax, N. S., says of a substantial trade with Canada: "The Canadian commercial agent for West Australia, reporting to the department of trade and commerce from Melbourne, says: 'Record orders are being forwarded for the year from Australia to Canada for agricultural implements and machinery. The principal Canadian manufacturers enjoy an excellent representation here, to which is attributable the splendid and increasing business done, which has led our enquiries are going forward to Canada by this mail for lines of goods new to this country.'"

A Lively Campaign.—Much interest is being taken in the Kootenays and throughout the Yale-Cariboo district in the federal election campaign in those constituencies for the choice of two members. Tuesday, November 22nd, is election day. C. H. Macintosh, the Conservative nominee in Kootenay, and Martin Burrell, the Conservative nominee in the Cariboo, are putting up a splendid fight, and "Big Bill" Gallieher and Duncan Ross, their respective opponents, are by no means going to have a walk-over. Many of the prominent coast politicians are in the field, stumping in the interests of their candidates.

Phone to Mainland.—According to the Vancouver World "Hello" will not sound over the telephone wires from Vancouver to Victoria until next week. This was the statement of Manager of the Telephone Company. The cable which came over on the Blue Funnel liner Telemachus has been successfully laid by the steamer Rapid Transit, and is in working order. The only missing link in the connection is a cable being stretched over San Juan Island. No difficulties are expected to arise in the successful completion of the work, but the company does not desire to throw the service open to the public until it has been thoroughly tested. Due announcement will be given of the time of opening for public service.

REGIMENTAL MATTERS.

Efficiency Pay Given Out—Colonel Hall Addresses the Regiment.

Regimental drill by the Fifth Regiment was held in the drill hall last night. About 120 officers, non-commissioned officers and men attended.

Lieut. Colonel Hall addressed the men at the close of the drill on various matters of interest to the regiment. First, he presented the gunnery certificates to those who had earned fairly easy scores at the rifle ranges and to attend twelve drills, two conditions that should be fulfilled by every member of the regiment. The men would find a small deduction had been made from the pay to cover the value of "shortages" in the equipment of the regiment. These did not amount to much, but he considered that as the shortages in blankets, tent pegs, etc., had been incurred by certain unknown members of the regiment upon whom it would be difficult to fix responsibility, the loss should be sustained by the whole regiment. In respect to the shortages the Colonel called especial attention to the large number of haversacks missing which amounted to about 30 out of 270 served out when the regiment went into camp last summer. Colonel Hall also drew attention to the classes in signalling to be held this winter and expressed the hope that these would be well attended. Classes in musketry also will be held, and a sufficient number of men having signified their desire to take up gymnastic work an instructor will be secured from V. I. K. D. who will hold gymnasium classes on Thursday evenings.

The efficiency pay was then handed out by the company officers and the regiment dismissed.

Some Heavyweight. By Jeffries

Champion of Fighters in a Play
Full of Unconscious
Humor.

Big Fellow Boxes Three Imita-
tion Rounds to Show His
Style.

Big Jim Jeffries, champion pugilist of the known universe, and probably, too, of the parts that are unknown, boxed three rounds last evening at the Victoria opera house with a slim gent in black tights hailing from the Olympic Club of San Francisco; one-minute rounds and three-minute rests. By the way, there was some sort of play before the event of the evening, "Davy Crockett," or something, in which the goddess Art presided such a dawdle in the solar plexus as is likely to keep her abed until the arrival of the next piece of legitimate dramaturgy.

Jeffries, as Davy Crockett, was powerful good, gifted with a voice attuned to for home concert and a word of command that would make even Sandow "sit down and take off that hat," if ordered to do so by that voice, stentorian and thrasonic, Jeffries brought down the house numbers of times.

The solemn parts of the play were intensely comical, and the deliberately funny parts were very sad. Davy Jeffries was at his best when his part allowed him to open the throttle on that awful voice and do some vigorous moving. Especially screaming was the scene where Davy imitates young Lochinvar, "Whoop! says the knight, 'Get out,' says the other, 'O'wan,' says the knight, 'Whoop!' says the bridegroom, and, 'Whoop!' again says the knight, with a one, two, three and ups and offs with the blooming bride." Such of the house as did not roar at this hilarious performance, chuckled at the gentle and in the solemn sections of the play the orchestra obligingly moaned gospel hymns, which made the audience shiver with appreciation and sympathetic emotion.

Jeffries, indeed, Miss Thalia certainly did get a terrible mauling last eve; but the audience got their money's worth of fun.

Jeffries as Spartacus, Incomar, or any other of those fine gladiatorial gentlemen who come out clad in the airy attire of the circus maximus, and, waving their short Roman sword, shout so that the gas fixtures jingle and the two-bit goals at the back of the gallery yell mightily, "I'll make Rome a howl!"—Jeffries in such a part would be very fit, for he has the physical gifts necessary to sustain the part of gladiator, and he would, besides, be in his proper element. Davy Crockett has not the gift of laying low the misguided individuals who presume to oppose his championing march to all sorts of championships.

There was one redeeming individuality in last night's company of satellites. Earl, a diminutive bruiser, Miss Anna Roberts, who played the part of heroine in Frank Mayo's wishy-washy and somewhat wozzy melodrama, Miss Roberts is the one offering to Art, the only excuse there is to appear in the company of a company of players.

It should be mentioned that the audience had the delectable honor of an introduction to a gentleman who ranks, or should rank, with Christopher Columbus, Marco Polo, Vasco de Gama and Senor Don Balboa as a discoverer. This was Mr. Billy Delaney, who discovered that James J. Corbett and James J. Jeffries. Many a discovery on Hunker Creek has not been so profitable. It was a night of high honors for all present, and fresh glory was added to the illustrious record of Victoria opera house.

3 p. m.—Senior Backs and Intermediate Forwards vs. Intermediate Backs and Senior Forwards, at the Caledonia Grounds.

Hockey.

3 p. m.—Victoria Seniors and Intermediate practice game.

ASSOCIATION FOOTBALL.

Championship Match.

The Oak Bay recreation grounds will present a busy scene this afternoon, as the game of which always draws a big crowd, Victoria United vs. the Garrison, is scheduled for 3 o'clock. The prize of admission will be the same as usual—civilians 25 cents; army and navy 10 cents; ladies free.

This match is of vital importance to both sides, as a glance at the following table shows:

| | Pld. | Won. | Drawn. | Lost. | Pts. |
|------------------|------|------|--------|-------|------|
| H. M. S. Grafton | 3 | 2 | 1 | 0 | 6 |
| Garrison | 4 | 2 | 1 | 1 | 5 |
| Victoria United | 3 | 1 | 1 | 1 | 3 |
| Victoria West | 4 | 0 | 0 | 4 | 0 |

The championship apparently lies between the children of the city, as the Grafton eleven is now out of the league, and the Victoria West representatives can hardly reach the top of the tree this season. The soldiers, however, played the same game last night, and the result was the same. The Garrison, who are practically even as regards points, but if the civilians win today, they will have some number of points at the Garrison, with the advantage of a game in hand. If the soldiers win, they will secure a lead which will be exceedingly hard to overcome. The draw would be unsatisfactory to both sides, as the opening captains are very anxious to secure a decisive victory. Sergt. Paley, the Garrison captain, has strengthened his team by the inclusion of two new players, a center forward and an inside right forward. Their play will be watched by the rival clubs with keen interest. Tpr. Constable, the center, who replaces Gr. Ford, is small, but very fast and tricky. His clever dribbling is a treat indeed, and Philiston, the defender of the Victoria goal, will need all his activity in order to stop the deadly shots from this dangerous forward. Simmons, who takes Phillips' place at inside right, is said to be a good all round player. He and Hazewood should make a splendid right wing. The left wing is the one, Matthews, on the inside, has plenty of speed, and he centers beautifully. He is not a heavy player, is always dangerous. He is not slow, but when he shoots the ball is very difficult to stop. The backs are excellent; Paley, the center half, is a team in himself, one of the

best features of his play being his splendid heading. Paley and Hazewood are sure kicks, and they give their forwards every chance to break away. Williams and Byrne, the full backs, are very hard men to pass, while Wormald is perhaps the most brilliant goal keeper ever seen here. The Victoria United boys are settling down in earnest now, and they mean to win this match. The reliable Philiston will be in goal, Capt. Goward and N. Goward at full back, with Rutherford, J. Johnson and J. Rithet on the half back line. This is a strong wall defence, and as the forward line is very fast, spectators should thoroughly enjoy the struggle. Owing to a slight accident, J. Cornwall will be unable to play center forward. Sam Lorrimer will take his place, while the vacant position on the line will be filled by the veteran left wing player, L. York, who can be depended upon to give a good account of himself. He and Berkeley, who is inside left, should puzzle the soldiers. B. Tye will play inside right, with J. Lawson on the outside.

Corpl. Renelle, of the Garrison, will act as referee, and his decisions always meet with the approval of both elevens. It is estimated that the game will start at 3 o'clock. The B. C. Electric Railway Company will run a ten-minute through service to Oak Bay, and extra cars will be running to the grounds, in order that there will be no delay. This will be the last appearance of Clinch, as he leaves for the East next week.

NOTES.

There should be a big improvement in the shooting of the Victoria United forwards, as they have been practicing this branch of the game.

Watch for J. Rithet's corner kicks. They are beautiful.

ASSOCIATION FOOTBALL.

Junior Games.

Both the junior league matches will be played at Beacon Hill. H. M. S. Grafton will have taken place at Oak Bay, but it was afterwards decided to have it at Beacon Hill.

The North Ward boys will meet the Victoria West eleven at the Hill at 3 o'clock. The Victoria West team will be playing the combined school boys.

P. Brown, Sprague; half backs, Maynard, R. Brown, L. Foss; forwards, F. Tait (captain), L. A. Brown, J. Bailey, Davey, J. Rithet.

J. Hanbury will act as referee for both contests.

Match at Esquimalt.

The match at the Canteen grounds between the Victoria United and the Victoria West will probably be one of the most closely contested games of the season. The teams, which were published yesterday, will line up at 3 o'clock.

Intermediate Practice.

All intermediate players of the newly formed Victoria club are requested to turn out today at the Oak Bay grounds between 2 and 3 o'clock. The big game commenced; also all those wishing to join the club are requested to be on hand, as the intermediate series of the city league will start from those turning out most regularly. There will also be a practice at Oak Bay on Sunday morning at 10 o'clock.

Rugby Football.

Interesting Game.

An interesting game is expected at the Caledonia grounds this afternoon, when the senior backs and intermediate forwards will try conclusions with the intermediate backs and senior forwards.

The rival efforts are well matched, and the hard practice will do all the players a lot of good.

At 1:30 sharp, the Oak Bay Juniors will line up against a combined aggregation from the Central, High and Commercial schools. The teams have already appeared in the Colonist.

The following item from a Vancouver paper indicates that the Vancouver champions will meet the Garrison team this match with Nanaimo on Thanksgiving Day.

The decisive defeat administered by the Nanaimo Hornets to the Victoria eleven on Saturday indicates that the Vancouver champions will have their work cut out for them in the second championship match of the season, which takes place at Brockton Point on Thanksgiving Day. Among the seniors, the result of the rugby game is generally conceded that Nanaimo had a good team and stood an excellent chance to win, but few expected that it would be so tame a such a whitewash as thirteen to nothing.

Now it is up to the local players to get together and do some hustling to get into good shape some of the promising younger players which has been introduced into the team from the Central and Commercial schools. The teams have already appeared in the Colonist.

The decisive defeat administered by the Nanaimo Hornets to the Victoria eleven on Saturday indicates that the Vancouver champions will have their work cut out for them in the second championship match of the season, which takes place at Brockton Point on Thanksgiving Day. Among the seniors, the result of the rugby game is generally conceded that Nanaimo had a good team and stood an excellent chance to win, but few expected that it would be so tame a such a whitewash as thirteen to nothing.

Now it is up to the local players to get together and do some hustling to get into good shape some of the promising younger players which has been introduced into the team from the Central and Commercial schools. The teams have already appeared in the Colonist.

Particulars Of The Divorce Case

Troubles Surrounding Mrs. Kershaw Thompson and Mr. N. H. Greenway.

Former Well Known Vancouver Vocalist—Said to Be in Victoria.

From the Vancouver Province of yesterday the following additional particulars are taken respecting the Terminal City divorce sensation, which was briefly mentioned in Colonist despatches.

Mrs. Kershaw Thompson, concert soprano, and well known in Vancouver and Victoria musical circles, was today named as co-respondent in a divorce case instituted in the Supreme Court of British Columbia.

The petition for divorce was filed by Carrie Matilda Greenway, wife of Newton Herbert Greenway of Vancouver, but formerly of Winnipeg and Deloraine, Man.

Greenway is a nephew of Thomas Greenway, formerly Premier of Manitoba, and at the recent federal election chose to represent the constituency of Lisgar, Manitoba, in the House of Commons.

Newton Greenway came to Vancouver from Manitoba about a year and a half ago, and has been acting as a broker, holding numerous agencies, that for a typewriter company.

About six or eight months ago Mrs. Greenway came unexpectedly to Vancouver. On arrival she went to live with her husband. Since coming to Vancouver Mrs. Greenway says she has heard and seen things which led her to the conclusion that married life with Greenway was not all what she desired. She accordingly recently determined to apply to the courts to sever her legal ties to him.

Among other charges made in the petition of the plaintiff and her affidavit supporting the petition it is alleged that yesterday Greenway and Mrs. Kershaw-Thompson eloped to Victoria. It is reported that Mrs. Kershaw-Thompson has a child, which allegedly was with her. Mr. William B. Thompson, husband of the co-respondent, is still a resident of Vancouver.

CURED OF LAME BACK AFTER 15 YEARS OF SUFFERING.

"I had been troubled with lame back for fifteen years and I found a complete cure in the use of Chamberlain's Pain-Exposer," says John G. Bisher, Gilman, Ind. This infirmity is also without an equal for sprains and bruises. For sale by all Druggists.

FINANCE AND COMMERCE.

New York, Nov. 11.—The stock market had its vicissitudes today, and there was some feeling of the pulse and steady movement in the market. The part of the professional element. But the sustaining and uplifting power of the demand demonstrated itself beyond question in the latter part of the day and the tendency of the continued active demand towards a reversal to standard railroad stocks helped to improve the tone. The market was slow in recovering after the strong underlying force of the whole market. Attention was late in responding, notwithstanding the confirmation of the large holdings of the stock acquired by the Rockefeller interests. The great variety of movements in specialties seemed to be started by the violent jump in Pacific Mail. Another advance in the price of Amalgamated Copper helped that stock and probably the general market.

The upward flight in some of the faded stock prices was accompanied by a general reaction in the market. The investment issues were especially improved. Total sales per value, \$14,920,000. United States bonds were unchanged on call.

The Liard Has A Great Future

Mr. Haskin of the Rosella Mining Company Talks of The Northern Goldfields.

Company Has Done Important Development Work—Lots of Gold in Sight.

In no part of the vast northern country is the outlook more promising than in the Liard division, where great progress is being made in the prospecting and development of hydraulic mining claims. A good deal has been written from time to time concerning the Thibbert creek property, which has reached the profit earning stage, but there are other properties that will soon be on the same satisfactory basis. One of the most important of these is the property of the Rosella Development Company, concerning which Mr. J. W. Haskin, who has just arrived in Victoria from the mine, speaks very hopefully.

Mr. Haskin is a mining man of many years' experience, and it is interesting to note that he has great faith in the future of the Liard country. Speaking to a Colonist reporter yesterday, Mr. Haskin said that the great difficulty encountered by those interested in the country is the lack of transportation facilities, but there is hope that some railway company will come to the rescue. At present the cost of transporting machinery to the creeks is exorbitant and naturally retards development.

"The Liard country is one vast gold field," said Mr. Haskin. "I speak from absolute experience when I affirm that. There was a time when it was not generally believed that the creeks would prove profitable at a depth, but now the days of deep channels have established the fact beyond all doubt. There are some twenty-two gold bearing creeks in this section and the ground has only been scratched over by the old prospectors. When the country is opened up by the construction of a road, there is likely to be as big an influx into the Liard country as there was to the Klondike. It will be a big country, of that I have no doubt."

The Rosella Company owns ten leases on five creeks and five bench claims. The aggregate length of the ground has been thoroughly prospected. The company has done a lot of work and has about completed a canal with a capacity of 1,200 inches and some 1,800 feet of pipes have been laid down. The work done on the famous Hunt's creek is considered of especial importance, and the

Be Ready For Croup

And Protect Your Children by Keeping in the House

Dr. Chase's Syrup of Linseed AND Turpentine

The Thoroughly Tested and Reliable Family Medicine.

To overcome croup you must act quickly. There is usually no time allowed for sending for doctors or medicines. The hollow, croupy cough at midnight may be your first warning, and this will strike terror to your heart if you are not prepared to fight this disease.

It may be of little use to know that Dr. Chase's Syrup of Linseed and Turpentine is a positive cure for croup if it is not to be obtained at the critical time.

Most persons who have tested this treatment for croup keep a bottle at hand, so that by prompt action they can prevent the disease from reaching a serious stage.

Dr. Chase's Syrup of Linseed and Turpentine is composed of simple ingredients of unquestioned curative power, is pleasant to the taste, well liked by children, and can be used with perfect safety by old and young, so long as directions are followed.

MRS. GEORGE BROWN, 71 Harbord street, Toronto, writes:

"Our children have been very subject to croup, and we have found that Dr. Chase's Syrup of Linseed and Turpentine has always brought quick relief. By using it at the first sign of trouble the disease is checked at once. We always keep this remedy in the house, and, in fact, feel that we could not do without it. It has also been used by our children with excellent results, and we recommend it to our friends."

Dr. Chase's Syrup of Linseed and Turpentine, 25 cents a bottle; family size, three times as much, 60 cents, at all dealers or Edmundson, Bates & Co., Toronto. To protect you against imitations, the portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

Hazy Weather Bothers Shipping

Fog Is Reported From All Points on the Coast Around Victoria.

Vessels Detained In Fraser River and at Nanaimo by the Haze.

Thick weather has been experienced all over the Pacific coast since immediately around Victoria, for several days past, greatly hindering shipping bound for this port and the Sound. A number of small craft bound this way from the Fraser have been detained on the islands by the dense fogs prevailing on the Gulf and around the mouth of the river. One of them, the Otter, arrived only yesterday, two days overdue, with a load of produce. Around Cape Mudge, the weather was also very heavy, and the Otter was also blowing all the week, the fog is very thick. A large number of vessels have been standing off and on at the entrance to the straits waiting a chance to get inside, some for the Sound and others for Royal Roads. At Nanaimo considerable inconvenience to shipping has been caused by fog. Latest reports last evening from up and down the strait were to the effect that the fog was clearing somewhat, and would probably disappear within a few hours. It is a long time since the fog and haze settled down so thickly over this part of the coast. As far south as San Francisco the same kind of weather has been experienced, and there have been some very narrow escapes from collision and running ashore all along the coast.

MOOLTON FROM MEXICO.

British Ship Arrives in Royal Roads Yesterday After Some Delay.

The American tug Tacoma yesterday towed to Royal Roads the British ship Moolton, Captain Elliott. 61 days out from Acapulco, the Moolton was detained by thick and baffling weather off the Cape for upwards of sixteen days, in company with the bark Aracan, of the same company. The Aracan left the Mexican port four days after the Moolton, along with three large sailing vessels bound for the Strait of Fuca. Those vessels are all off the Cape now. The captain of the Moolton reports very heavy weather along the coast, and that the Moolton had her foretop sail carried away in a gust. The vessel brought coal from Newcastle for the Pacific Mail Steamship Company, the coal being discharged at Acapulco, in the Newcastleship, the Moolton, and there the Welsh coal bunkers. Captain Emmett's wife died of apoplexy on the way out from Newcastle, and was buried at sea. The Moolton and Aracan have been chartered to load at Tacoma.

LUMBER SCHOONERS SAIL.

Port Blakely, Nov. 11.—The four-masted schooner Lyman D. Foster, Capt. D. Killman, has finished her lumber cargo from the mills here and will tow to sea Saturday morning. She has a cargo of about 950,000 feet, consigned to San Francisco. The American schooner Bainbridge, Capt. Engelbrecht, arrived today after a voyage of 12 days from San Francisco. She will probably load a return cargo of lumber here.

LOAD FOR CALIFORNIA.

Ballard, Nov. 11.—The schooner Stimson, Captain C. Peterson, arrived today, 17 days from Redondo. She will load a cargo of lumber from the Stimson Mill Company for California ports.

LUMBER FOR MELBOURNE.

Port Townsend, Nov. 11.—The British ship Agnes Oswald, which arrived here last Tuesday evening from Port Gamble, has signed a crew and will tow to sea tonight bound to Melbourne with a cargo of lumber loaded at Port Blakely and Port Gamble. The British ship Blythwood, Captain Owen Pritchard, arrived this evening from Bellingham to secure a crew for her voyage to Port Natal.

FOR SOUTH AMERICA.

Bellingham, Nov. 11.—The American schooner Willis R. Hume, Captain C. M. Wilson, arrived today from San Francisco, 21 days from San Francisco, to load a cargo of lumber for South America.

LOOKING FOR CHARTER.

Port Angeles, Nov. 11.—The British ship Sokoto, Captain Bourke, which arrived in port October 21st from Hongkong, expecting to secure a charter, tows to sea this morning.

AMERICA MARU SAFE.

The Japanese liner America Maru, Captain Philip Goins, has arrived safely at Yokohama, as reported by cable, says the San Francisco Chronicle. The handsome liner left San Francisco on October 19th with a full cargo of freight that was made up principally of material for making powder for the Japanese government, and in her cabin had twenty or more passengers. Since one or two Russian cruisers were believed to be somewhere in the Pacific, evidently waiting to pounce upon the steamer, some interest was felt in her safety, though Captain Goins, upon his departure, showed no anxiety in the matter. The arrival of the America Maru in Japan has been a relief to everybody here. She is to follow a regular schedule through to Hongkong, and upon her return here will probably be commanded by Captain W. F. Palmer, formerly of the Hongkong Maru. Captain Goins, now in command, hopes to be given command of a transport by the Japanese government.

PLENTY OF WATER.

Tacoma Ledger says: That there is water of sufficient depth in Tacoma's harbor to allow the loading of the largest ships that will ever enter Puget sound is the opinion of Robert Harrison, the Northern Pacific diver, who has been making an examination of the docks and bottom for the past week. This is very gratifying to those interested in the welfare of Tacoma's shipping, as it is reported that in Seattle the docks of the Great Northern Company will have to undergo change and the dredging will be necessary before the ships of Jim Hill's Oriental line can berth there.

FRISCO'S ORIENTAL BUSINESS.

San Francisco, Nov. 11.—The value of the merchandise and produce shipments from San Francisco to the Orient in October was \$3,837,302, which is more than one-half of the total shipments from here to all ports in that month. In the same month last year the shipments to the Orient from this port were valued at \$1,393,395.

MALICIOUSLY DAMAGE A SHIP.

Four sailors of the British ship Langdale, who made complaints before Consul Tait, have been charged with maliciously damaging the vessel. After their absence was discovered it was found they had unscrewed the brass top of the forward capstan and thrown it

overboard, severed parts of the fish tackle and cut the foretop sail clew line. Harbormaster Biglin is looking for the tars, and if he lays his hands on them they will have a serious charge to answer to in court.

LAST WHO SAW DISCOVERY.

Chief John, of the Littuya bay tribe of Indians, was the last person to see the steamer Discovery, which was lost while coming down to the Sound from some year ago. This is the story from Valdez and is believed there. According to the Indian, the Discovery was trying to make Littuya bay and seemed to him to be disabled. There was a terrible sea on at the time, and as the steamer tried to turn into the bay she disappeared. The hull was afterward reported to have been found near there. The Discovery carried about thirty passengers.

MERCHANT LIBELS TOPEKA.

Martin Conway, a merchant of Skagway, yesterday libeled the City of Topeka for \$12,175, alleged to be the value of two cases of clothing which was ruined as the result of the sinking of that vessel, says the Post-Intelligencer. In the complaint in the proceedings filed in the United States Circuit court, it is alleged that the clothing was aboard the Topeka en route from San Francisco to Skagway, when it was consigned to the libellant, and the injury to the same resulted from the carelessness of the officers of the Topeka. McClure and McClure are attorneys for Conway. This is the fourth libel that has been filed against the Topeka since she was raised.

MARINE NOTES.

Steamer Humboldt called at the outer wharf yesterday, bound North. Steamer Miowera left last night for Australia, with passengers and freight. Steamer Otter arrived yesterday afternoon from the Fraser river with produce.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Doctor Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States for any case of Leucorrhoea, Female Weakness, Prolapsus or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure. All correspondence held sacredly confidential.

If you require medical advice don't fail to write Doctor R. V. Pierce who will give you the best advice possible. Address Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets are a ladies' laxative. No other medicine equals them for gentleness and thoroughness.

What's New in Overcoats?

Everything. You never saw so much newness in the wardrobe before.

Styles are new: not extreme nor radical, but distinctively different from those of last year.

Patterns are different, too—and very attractive in their novelty and exclusiveness.

Fit-Reform fabrics are selected with the nice discrimination that assures them being sanctioned by the Canadian gentleman.

Aren't you ready for one?

\$12 to \$25

Fit-Reform

ALLEN & CO., 73 Government St.

Maple Leaf Grain Grinders.

These Celebrated Grain Grinders are used by thousands of farmers and others in Canada for grinding grain for feeding purposes, and in grist mills in place of burr stones. They have BALL-BEARING PLATES, which is a wonderful improvement. The plates ARE FLEXIBLE, and thus true and even running is ensured. They can be run with any kind of power. They are handy, steady as a clock, and do first-class work.
